

PRESS RELEASE

Wojskowe Zakłady Elektroniczne S.A. and HEMERIA Sign a Partnership Agreement on the nanosatellites market

Kielce, MSPO 2019, September 5, 2019 – Wojskowe Zakłady Elektroniczne S.A. and HEMERIA sign a Partnership Agreement for cooperation on the nano-satellite market.

Thanks to this agreement, Wojskowe Zakłady Elektroniczne S.A. and HEMERIA will define an international agreement for a deep cooperation between both Companies and for a long term partnership in the field of nanosatellites and other projects which are to be fitted in chosen programs led by WZE and HEMERIA involving this kind of the technology.

The general goal will be realized by a number of concrete projects.

About WZE S.A. – www.wze.com.pl

Wojskowe Zakłady Elektroniczne S.A. is a leading entity in special electronics segment within the companies belonging to PGZ S.A, with competences originating from radiolocation, missile anti-aircraft defense and electronic warfare. WZE has a considerable experience and expertise in the field of equipment design, production and maintenance for: reconnaissance and radio-electronic warfare; command and communications; air defense; special electronics; special mechanics, and is currently developing competences in the field of space equipment.
