COMMUNICATION

Electronic systems through-life support

Guaranteed optimal availability

Mission continuity guaranteed

On-site support

To ensure operational availability and sustained performance for your strategic assets, HEMERIA provides through-life support for your systems. HEMERIA can go to the sites housing your assets, make repairs, store your spares, conduct an obsolescence watch, and be your partner in optimizing the return of your systems to full operational capability.

Our on-going support programs

- Tracking radars
- Landing aid radars
- Navigational aid systems (military or civilian)
- Test benches for calibration, repair, check of chemical, biological, radiological and nuclear equipment
